

ASSOCIATED AIRCRAFT GROUP **IS ABOUT YOUR TIME...**

While some see private aviation as a luxury, you know differently.
You know the value of your time, your security, and your privacy.
And so do we.

ASSOCIATED AIRCRAFT GROUP

THE PREMIER EXECUTIVE HELICOPTER COMPANY

EARNING YOUR TRUST FOR MORE THAN 20 YEARS

We operate the largest fleet of Sikorsky S-76® helicopters in the Northeastern United States.

With spacious, quiet cabins, finely appointed interiors, state-of-the-art avionics, and more than 20 years of proven safety and reliability in all weather conditions, the S-76 is recognized as the gold standard of executive helicopters.

At AAG, we're part of the Sikorsky family — the first name in helicopters. So don't just take our word for it. Find out why more Fortune® 100 companies choose the S-76 helicopter than all other executive helicopters combined.

The decision to fly with AAG is an easy one. Associated Aircraft Group gives you peace of mind and confidence in knowing that the safety of you and your family are our #1 priority.

We've been awarded the industry's highest recognition for our record and our commitment. ARG/US Platinum. ISBAO Certified. Wyvern Approved. There is no higher standard.

WHEREVER YOU GO

AAG CHARTER HAS YOU COVERED

AAG Charter is the ideal way to meet your travel needs safely, securely and reliably. Our 20-year record of incomparable service assures your business and personal travel will be efficient and effortless. The legendary Sikorsky S-76® executive helicopter is available at your departure location throughout the Northeast...on your schedule.

Weekend getaways are truly enjoyable when you arrive at your vacation destination relaxed. Wherever your destination, there is always plenty of room for family, friends, golf clubs and your beach bag.

When you have a bit of flexibility in scheduling, the AAG® Excalibur Card™ provides pre-purchase of incremental units of flight time. You receive guaranteed scheduling with 48 hours notice during off-peak flight periods. The AAG Excalibur Card is the ideal intermediate option between on demand charter and fractional ownership.

TAKING THE STEP TO **FRACTIONAL OWNERSHIP**

If your travel plans call for more frequent flying, fractional ownership offers the benefits of owning at a fraction of the cost.

You get the same great S-76® aircraft, with no hidden costs. The aircraft, fuel, maintenance, scheduling and dispatching are part of the package. Best of all: Your aircraft is available when you need it, where you need it. Guaranteed.

And now there's a better reason than ever for stepping up to fractional ownership: the opportunity to buy into the next generation S-76—the all-new S-76D™, featuring greater power, quieter interiors, upgraded avionics, and a host of other advances.

Sikorsky Shares is the only helicopter fractional program backed by the aircraft manufacturer, and clearly the most economical way to own a Sikorsky S-76 helicopter.

FOR OWNERS:
**THE BEST MANAGEMENT
IN THE BUSINESS**

You purchased a helicopter for its unique capabilities, so you also know that managing a helicopter requires unique expertise.

AAG is the industry's most experienced and trusted aircraft management team. We've been bringing the benefits of professional aircraft management to individuals and corporations for more than two decades.

For example, when you include your aircraft in the AAG Charter fleet, we'll manage every detail as you offset your costs with a steady financial return. All the while, you can rest assured your precious aircraft is in the care of the industry's leading maintenance technicians, and flown by the industry's most experienced pilots.

INDUSTRY LEADING **MAINTENANCE**

AAG operates an FAA Part 145, Sikorsky Authorized Service Center. In aviation terms, that means our extensive facility and highly trained technicians handle all facets of maintenance and repair for your helicopter – from engine maintenance to airframe repair.

We're proud to be acknowledged as one of the world's leading Sikorsky S-76® specialists, and we've also added the highly impressive and capable Sikorsky S-92® to our aircraft maintenance portfolio.

It all takes place with a group of exceptionally trained maintenance technicians in 55,000 square feet of dedicated hangar and office space making for the highest quality maintenance and shorter down times.

But you don't need to remember those specs. Just enjoy the peace of mind that your next journey is in the hands of the best professionals in the business.

CORPORATE SUPPLEMENTAL LIFT

PROVIDING INNOVATIVE SOLUTIONS FOR
FLIGHT DEPARTMENTS AND CORPORATIONS

The job of the flight department is complicated and the needs are unique. When supplemental lift outside your fleet is required, many factors must be considered. You can eliminate the uncertainties and ensure a smooth operation for flights needed out of your company's fleet through Associated Aircraft Group's Supplemental Lift Program.

AAG is able to provide innovative solutions for flight departments and corporations looking to reduce capital expenditures and operating costs while still maintaining the responsiveness and flexibility to satisfy the needs of their executives. Our Supplemental Lift Program provides access to our entire fleet of Sikorsky S-76[®] helicopters without the financial commitment of traditional programs.

Complement your existing fleet while guaranteeing executives the safety, convenience and privacy they require.

- Access to the largest fleet of Sikorsky S-76C[®] helicopters in the region
- Guaranteed availability 24 hours a day, 365 days a year
- Dual piloted & twin turbine engine reliability
- Simultaneous usage of multiple aircraft
- Dedicated customer service team
